Registration Procedure

There are several forms that we need to have on file in each student's records. They include the following:

- (1) authorization to release records,
- (2) local field trip permission,
- (3) inclement weather transportation preference,
- (4) student image release/conduct agreement,
- (5) network and telecommunications services acceptable use agreement,
- (6) equipment use agreement, and
- (7) CVCC parental permission form.

If you have any questions about these forms, please call the Governor's School office so we can assist you (434-477-5980).

Typical Junior CVGS Schedule

CVGS juniors follow a rotating class schedule Monday through Thursday. On Fridays they have a 3-period block reserved for research instruction with internships in the spring. Students have 10 minutes each day at the end of their session to use equipment, work on projects, or seek extra help from the faculty.

There are two sessions each morning at CVGS. Session 1 is from 7:30-10:10, and Session 2 is from 8:25-11:05. Bedford County Public Schools schedules at least 12 juniors into our CVGS second session each year. Other students are welcome to attend the second session, although they should check to ensure transportation will be provided.

New Student Registration

Agenda

April 15, 2015

7:00-8:15 p.m.

Three sessions are scheduled this evening. Each session will last 20 minutes, and there will be five additional minutes between sessions to allow guests to move from room to room. The highlighted session is the one in which you begin, and you will be there from 7:00 p.m. until 7:20 p.m. You will then be directed to the next room in the rotation.

Mrs. McMillan, Room 201

- Research & Internships
- Inclement Weather & Absences
- Parking & Procedures
- Questions and Answers Time

Mr. Howard, Room 202

- Junior Registration Packet
- Dual Enrollment & NSO
- Laptop, Email, Google Drive

Dr. Smith, Room 205

- CVGS Transitioning
- CVGS Website
- School Calendar: NSO Events
- Questions and Answers Time

Home High School Schedule

Now that you are enrolled in the Governor's School, please be sure to schedule a meeting with your home high school guidance counselor so he or she is aware of the courses you will be taking at the Governor's School next year. You will take physics, research, and either math analysis or calculus. It is important for you and your parents to carefully consider how you will balance your Governor's School coursework with your home high school courses and any co-curricular or extra curricular activities.

CVGS Internship Program

The CVGS internship program provides students with extended learning experiences in a real world environment. These experiences allow students to see first-hand the leadership, communication and time-management skills necessary to be successful in the workplace.

Each junior completes an internship interest and qualifications survey in the fall. This information is used to match each student with an internship opportunity for the spring. Internships occur on twelve Friday mornings from 8 a.m.- 11 a.m. beginning in February and ending in May. Students are required to provide their own transportation to and from their internship locations. First session students may miss some of a home school class on these Fridays due to the later ending time. In the past, our students and their home high school teachers have been able to plan ahead to accommodate the internship schedule.
